Question for Rosie

Rosie, a belated thank you for the excellent work from your team - Stan and Don Brees! Stan adjusted the fill on our toilet and that did the trick. The mechanical room doors and flashing look great and we no longer have a scupper issue! I called Posterino to find out whether they could fix the stone around our pool and they said it would be very expensive and recommended we find a handyman. We talked to Don and he suggested going to Arizona Tile. We did that, bought some grout-type stuff and Ray and I were able to do it ourselves in about 30 minutes! I called Brian Bessett about the door rollers; he came out and they work perfectly now. The only thing we haven't done yet is to replace the gas log burner in our patio fire place. We will take care of that too. We so appreciate your time and expertise! Thanks again!
