

Just a quick note on what a great job you and your crew did. From the expertise you provided to the professional manner the landscapers did their work, it was a great experience. The tree and bushes you planted will make a great addition to our view. Our next project will be adding a layer of granite and doing something under the deck. We look forward to working with you on that.

Thanks again for a great job.

...you did a good job and deserve the credit. Believe me, along with cost being a factor, quality is even a higher priority. Although your crew didn't see me, I was watching how they planted and worked as a team. They did everything by the book.

Rosie, you picked another winner for your contractor network with Vicente. I love it when you do the hard work finding the good ones.

Chuck & Sandy
