

Julia Drake

Rosie,

Based on your referral network, we had Intelligent Design replace out 17 year old A/C and heating system. Hearing you talk about them we went to no other A/C contractor for quotes. It was a truly wonderful experience. They gave us a complete analysis of our home A/C and heating needs. Determined the type and size of the unit we need based on our a/c and heating loads required for our home. The installation was done efficiently and cleanly. Lance, Dean and Tim bent over backwards to see we were completely satisfied. Gave us a portable A/C unit for our bedroom while our old unit was being replaced. Worked to resolve a air balance problem that existed since our house as built in 1997. We could not ask for a better company to do business with.

And thanks to you Rosie for your contractor referral network and all the hard work you go through to generate and maintain it.
