Integrity Tree Service:

I want to commend your company and your staff for the excellent service they provide. We had to have a 25-year-old Palo Verde tree removed from our front yard and the 3 guys who did the work were extremely courteous, professional and very safety conscious. I was so impressed that they all had the appropriate hard hats, eye/ear protection, gloves, etc. When taking down the tree, there were no worries about which way the tree would fall (away from the house and the street). They worked quickly and efficiently to complete the job and other than a stump (which will be grinded down next week) you could never tell that they were there. The job clean-up was awesome. The excellent service started with Andy who met with us and showed us why the tree needed to be removed and what our options are regarding a replacement tree. He also conveyed to the workers how the Palo Verde tree in our back yard needed to be trimmed to avoid the neighbor's yard and they completed that as well. The prices are fair for the job that is done and I never hesitate to recommend your company. Now I know why you are a Rosie Preferred contractor!

Great Job and thank you,

Bill and Beth [REDACTED]
