Premium master bath remodel

A complete removal of old bathroom allowed for total modernization. The clever use of light surfaces, different ceramic surface finishes, well thought out details and clean lines in the shower tile, and the grand glass wall that divides the shower from the remaining bathroom, creates an open and inviting layout. The ceiling was painted in a reflective glossy white allowing the light to be reflected more and for the room to be perceived as taller and brighter.

Excellent finishes and details

1. Large format porcelain tile in two different surface finishes with narrow grout joints.
2. Contrasting stack tile on wall and floor.
3. Hand held shower head on stainless steel rod.
4. Matching shower head, installed in ceiling.
5. Shower controls and diverter for hand shower only, shower head only, or simultaneous water flow.
6. Exhaust fan with humidity sensor, automatically controlled.
7. Shower niche with LED lighting and contrasting tile back to match vanity backsplash.
8. Raised shower pan, gradually sloping to a tile-in linear drain.
9. Large format floor tile with narrow grout joints.
10. Glossy subway ceramic tile backsplash in a herringbone pattern.
11. Platinum gray quartz countertops with matching side splashes.
12. White Shaker style cabinetry.
